EMBEDDED IMAGE

Typography and layout

Arial provides the main UI voice; **bold text**, *italic styling*, and `monospace code` verify font selection and inline runs.

- Balanced line-height and padding
- Rounded, solid-color cards
- Flexible two-column content

Supported CSS first.

Every rule in this sample is chosen to exercise a feature already supported by htmltopdf.

Styled table

Component	Style exercised	Status
Heading block	Font size, color, spacing	Ready
Metric cards	Grid, borders, radius	Ready
Inline content	Font family, code, link	Open reference
